### THIRD STREET AND BROADWAY.

### ALL IS HARMONY ONCE MORE

### WILL PLEAD HIS ACQUITTAL.

As exclusively forecasted in The Sun, the directors of the First National bank, at a special meeting called for that purpose yesterday afternoon, passed a resolution awarding the contract for the construction of its proposed 10-story Third street and Broadway building, to the Southern Construction company, of St. Louis, the lowest bidder. The bid was \$123,500.

Work on the structure will be started at once, and it is hoped will be completed within nine or ten months. The bank has rented the building at 113 North Third street, from the George O. Hart Hardware company, for temporary quarters, and will remove the bank fixtures from the present quarters at once. Contractor Welke will build a temporary vault in the Hart building, the contract having been awarded today.

The building will be the first skyscraper in western Kentucky, and will be built on the most modern and approved plans.

Suburban Jumps Track.

Chicago, May 9.—Fifteen or more people were injured, some seriously, today when a Chicago, Burlington & Quincy train, heavily laden with city bound passengers, jumped the track at Millard avenue. The engine was running at a high rate of speed and struck an obstruction.

Cincinnati May 9.—Taft for president, Foraker for United States senator, A. L. Harris for governor, is the program advised by George B. Cox, former Republican leader of Hamilton county, in an interview this morning. He advocates this in the interest of party harmony.

When the attention of Foraker was called to Cox's statement he said:

"I have just read what Mr. Cox said. If I understand him correctly he makes a specific recommendation to the Republicans of Ohio as to what their action shall be in the convention of next year. I am not sure that it calls for my response from me. Inasmuch as you seem to think it does, I will repeat that I don't want any political honors at the hands of the Republicans of Ohio except with their hearty endorsement. Therefore if what Cox suggests and recommends should meet with their approval no one will support Secretary Taft more cordially than I shall."

The outburst from the mayor brought the statement from City Attorney Thomas Harrison, that he would attend to the case, and Mr. Harrison swore out another warrant charging "selling and delivering."

The case hinged on the testimony of the defendant and Lottie Jacobs, who keeps house three doors from the saloon, that Lottie purchased the beer Saturday night and paid for it, and that as she had no ice, Mitchell graciously kept it until she wanted it.

The original charge was preferred by Patrolmen Rogers and Hill, who saw Mitchell carry a basket from his saloon to Lottie Jacobs' house Sunday night. They entered the house and satisfied themselves that the basket contained beer.

On the statement of the principal witnesses Judge Gross dismissed the defendant.

The patrolmen threatened to take the case before the grand jury and Mayor Yeiser said he would employ a lawyer to prosecute the case if necessary.

It is understood a plea of acquittal will be entered.

**What Bread Is Made Of.**

The school mistress had been attempting, in vain by means of a lengthy lecture to have her scholars grasp the names of the various ingredients that go toward the making of a loaf of bread.

At length she sent one of the children to the village baker to fetch a loaf and on its arrival she held it up and began once more to describe its manufacture.

Then, after half an hour's earnest talk, she ventured to question them

on the subject.

"Charley," she said to the boy nearest her, "tell me what bread is made of."

The boy instantly obliged.

"Please, miss," he answered eagerly, "holes and crumbs."

**HUMORS IN THE BLOOD**

**Coming of Warm Weather Forces Them Out, Causing Itching, Burning Skin Eruptions.**

The blood and skin are so closely connected that whatever affects the one has a corresponding effect on the other. When the blood is pure and healthy the skin will be soft, smooth, and free from all eruptions; but when the blood becomes infected with some unhealthy humor the effect is shown by rashes, eruptions, boils and pustules, or other disfiguring and annoying skin disease.

The skin is provided with countless pores and glands which act as a drainage system to rid the body of impurities through the perspiration that is constantly passing through these little tubes. There are other glands that pour out on the skin an oily substance to keep it soft and pliable, otherwise it would become hard and dry from constant exposure to wind and sun. When the blood becomes filled with humors and acids these are thrown off through the pores and glands, burning and irritating the skin and drying up the natural oils so that we have not only Acne, Eczema, Salt Rheum, etc., but such dry scaly skin eruptions as Tetter, Psoriasis and kindred troubles.

These humors find their way into the blood through a disordered or deranged condition of the system. There is a certain amount of waste or refuse matter collected in the body every day. This is useless in nourishing or keeping the system in health, and nature intends that it shall find an outlet through the channels of bodily waste. As long as these members perform their duties properly the blood remains pure and free from infection; but when from any cause they become dull and sluggish, this refuse matter is left to sour and be taken into the blood in the form of humors and poisons. The skin is a perfect index to the blood; when we see one afflicted with a skin disease, or pimples, rashes, eruptions, blotches, etc., constantly appearing, we know that down deep in the blood a humor has taken root, and instead of supplying nourishment and strength to the fine, delicate tissues of the skin, it is pouring out its acid and unhealthy accumulations.

The skin is not only affected by the humors generated within the system, but poisons from without, such as Poison Oak and Ivy, Nettle Rash, etc., as well as poisons from metals, acids, etc., enter through the open pores and glands, and so thoroughly do they take root in the blood that they are ever present, or return from year to year to annoy the sufferer. The treatment of skin diseases with salves, washes, lotions, etc., is along the wrong line. True such treatment relieves some of the itching and discomfort, and aids in keeping the skin clean, but it does not reach the real cause of the trouble, and at best such things are only palliative and soothing.

A thorough cleansing of the blood is the only cure for humors in the blood. S. S. S., a gentle acting, safe blood purifier, made entirely of vegetable ingredients from nature's forests and fields, is the proper treatment. S. S. S. goes down into the circulation and neutralizes the acids and humors, thoroughly cleansing and purifying the blood, and curing skin diseases and afflictions of every kind. It supplies to the

blood the fresh, nutritive qualities necessary to sustain the skin and all other parts of the body, and rids the blood of any and all poisons. S. S. S. cures Eczema, Tetter, Acne, Psoriasis, Salt Rheum, Poison Oak and Ivy, Nettle Rash and all troubles of the skin. Special book on skin diseases and any medical advice desired furnished by our physicians without charge to all who write.

**CARS RUN**

**RIOTING IN SAN FRANCISCO ENDS FOR A TIME.**

Police Manifested a Disposition Yesterday To Enforce the Laws Vigorously.

San Francisco May 9.—Late yesterday afternoon two cars manned by strike breakers left the car barn at Oak and Broderick streets, going west toward the Ocean beach. The cars finished the trips at 4:40 and were run into the barns. The trip was made without much difficulty.

At one point a man in a buggy pulled a pistol, but a dozen policemen were after him before he had time to shoot. The man dropped the gun and ran, but was captured.

At another place a carpenter working on a building threw a hatchet at one of the cars. He was a prisoner in less than a minute.

A telephone lineman driving a wagon blocked the cars and tried to hit a mounted policeman with a pair of heavy pliers. He was clubbed into submission and arrested.

The temper of the police was radically different from that of yesterday. Today they showed a disposition to watch the cars and prevent the union sympathizers from throwing missiles. Each car was manned by half a dozen men, none of whom were armed.

It's easier for a married man to stop a runaway horse than his wife's tongue.

**O'BRIEN RUNS**

**TRIO'S UNFAIR TACTICS AND IS BEATEN IN 20 TAME ROUNDS.**

Crowd Jeers Philadelphian, First-time Champion, and All Bets Are Off.

Los Angeles, Cal., May 9.—Tommy Burns of Los Angeles, won the heavyweight championship of the world from "Philadelphia Jack" O'Brien last night after 20 rounds of fighting that was for the most part a foot race.

O'Brien ran away from Burns from the first round to the finish and only occasionally was the latter able to overtake him. Then O'Brien invariably clinched with Burns and held on until the referee pried them apart.

The crowd hooted and jeered O'Brien as he raced about the ring. But very few blows of any vigor were landed by either man and neither suffered any apparent damage. Both of O'Brien's eyes were damaged and his lips cut open, but Burns had scarcely a scratch.

Burns chased his man around the ring, O'Brien running as if in terror of his antagonist. Now and then Burns would overtake him and beat him in the back.

O'Brien Gets In Few Tugs.

O'Brien landed many light blows at long range on Burns' head and face, during his capers about the enclosure, but they were absolutely without effect. Clinches were frequent. The referee had the greatest difficulty in prying them apart, or rather, in prying O'Brien loose from Burns. The referee cautioned O'Brien repeatedly about his holding tactics and finally told him he must stop it.

Jack occasionally attempted unfair tactics by holding Burns' head under his arm and trying to use his elbow.

The twentieth and final round was as tame as the others.

Before the beginning of the fight, the referee declared all bets off under instructions from Manager Carey of the Athletic club. The referee said he was unable to give reasons for this action.

**SENATE CONCURS  
IN LOCAL OPTION**

**Illinois Measure Will Soon Go  
to Governor**

**Anti-Saloon League Expects to Close  
1,500 Saloons Outside Large  
Cities.**

**SOME OF ITS LIVE FEATURES.**

Springfield, Ill., May 9.—When the  
Senate met the local option bill,  
which the house in passing had  
amended, was reported in for action.  
Senator Berry, who had introduced  
it, explained that the amendments  
which the house had tacked to it  
were merely for the purpose of a  
better definition of some of the  
terms used, such as township and  
precinct.

After his explanation the Senate  
immediately voted to concur in the  
amendments, and the bill, as soon as  
engrossed, will be laid before the  
governor for his signature, thus put-  
ting an end, temporarily at least, to  
the political issue which has caused  
more and more trouble in each suc-  
ceeding session of the legislature,  
and which was destined to cause still  
more if it had not been settled.

The act, as it will become a law  
July 1, does not represent the ex-  
treme hopes of the temperance people,  
who desired an enactment which  
would permit the people of counties  
as well as townships to vote on the  
saloon question, and which would  
give the same privilege to precincts  
and wards in cities and towns. This  
act will permit the people of town-  
ships, cities, towns, and villages, and  
in counties not under township or-  
ganization, to vote whether or not  
they want saloons.

With it the officials of the Anti-  
Saloon League have said it will be  
possible to close at least 1,500 sa-  
loons.

**Will Not Affect Chicago.**

Inasmuch as the ward and precinct  
clauses of the bill were stricken out  
when Senator Berry framed the com-  
promise measure which has been  
passed, the bill will not affect Chi-  
cago. Because of the fact that the  
county feature also was stricken out,  
it will have little or no effect on  
many of the larger cities of the state,  
unless those cities by their own vote  
decide to abolish saloons.

Where township lines are so laid  
that the votes of the people in the  
country can affect the vote of a part  
of the city, or where the township  
overshadows the incorporated town,  
then the votes of the people outside  
the corporate limits will have weight  
in deciding and may decide whether  
or not that town shall have saloons.

In brief, the act provides that one-  
fourth of the legal voters of any  
township, city, incorporated town or  
village, may petition for the submis-  
sion of the saloon question. This  
vote becomes operative within thirty  
days after it has been had. Provi-  
sions are made for safeguarding the  
signatures of a petition for submis-  
sion of the question.

If the voters of the locality vote  
against saloons, the dram shops go  
out of business, are paid a rebate to  
cover the value of their unexpired  
license, and the question of having  
saloons may not be submitted again  
for eighteen months.

Selling liquor in anti-saloon ter-  
ritory is made punishable by a fine of  
from \$20 to \$100 or imprisonment  
for thirty days for the first offense,  
and a second offense carries a jail  
sentence with a larger fine.

**OVERCOAT INCIDENT  
BEING INVESTIGATED.**

Washington, D. C., May 9.—Mrs.  
Elizabeth Fairfax Ayres, wife of  
Lieut. Col. Charles G. Ayres, of the  
Eighth cavalry, has precipitated an  
investigation of the action of Col.  
Robert Lee Hawze, commandant of  
cadets at West Point, in forbidding  
young women who visited the academy  
on Easter Sunday to wear cadet  
overcoats. Col. Stephen C. Mills, of  
the inspector general's department,  
is conducting the investigation in ac-  
cordance with orders given by secre-  
tary Taft.

Mrs. Ayres is said to be mixed up  
in the affair through criticisms made  
of Col. Hawze in letters she addressed  
to the president, Gen. J. Franklin  
Bell, chief of staff, and other high  
officials of the war department.  
She is a "Fairfax of Virginia" and  
has a son in the cadet corps of the  
academy. Her daughter was present  
at dress parade on Easter Sunday,  
when the now historic "cadet  
overcoat" incident took place.

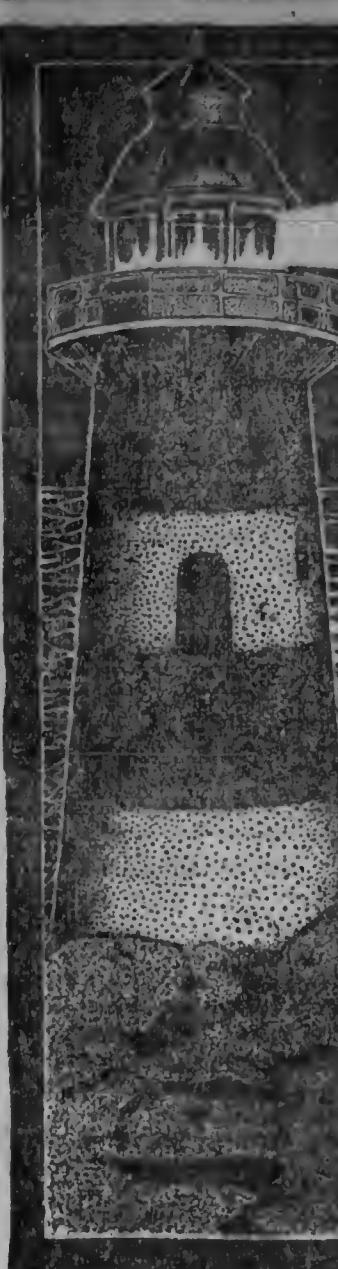

The weather on that day was raw  
and blustery, and some of the gallant  
young soldiers persuaded their girl  
friends to don their overcoats during  
the party. Col. Hawze observed this  
infraction of military discipline and  
called attention to the regulations of  
the academy which prohibit cadets  
from donning their coats or any other  
portions of their uniforms at any  
time or under any circumstances.  
In addition he ordered one of the  
police sergeants of the academy to  
request the young women to remove  
the coats forthwith. The order was  
obeyed, but not without resentment  
from the cadets as well as from the  
young women.

It will be impossible for any ac-  
tion to be taken in the case of Mrs.  
Ayres should Col. Mills uphold the  
course of Col. Hawze, but the in-  
cident is likely in this case to be em-  
barrassing for her husband. Lieut.  
Col. Ayres is now on his way from  
the Philippines to the United States.

## Daily Thought.

Let me live grandly, seek the things that last,

And when earth's past;

Stand—a crowned soul!

And give thee back thy years, well lived

—Henry Hallam Tweedy.

## "OLD WOMAN'S" DARLING.

"Old man's" darling as a term of contempt, must give way to the "old woman's" darling of the later development in speculative matrimony. We have for example young Mizner, who married the widow of the California multi-millionaire, and who now seeks a divorce in order to marry a "pretty blonde." He is like the gambler, who wins a pot with stacked cards, and then goes against a faro lay-out. Mrs. Mizner may live to see the "pretty blonde" revenge the outrages she has suffered.

Young Carew, an actor, wed dear old "Ellen Terry." There are prospects of ultimate good in the "Old Woman's" darling ideas that were utterly lacking in the older form of marrying for money. Then it was that parents gave their daughters in marriage to decrepit bachelors or widowers, with a "pile," figuring that a few years of bondage would be fully repaid the young thing by the dower which would eventually be hers.

The "Old Woman's" darling idea offers opportunity for the endowment of brains. The young scientist, the young professional man or scholar, lacking means but possessing certain charms and social graces may win a wife, who figures low in the mortality tables and high in the bank books. Thus, possibly a fortune wrung from the rock-ribbed bills or by delving deep in the pockets of the public, may be turned to account in the amelioration of the human race.

So far, of course, the beneficiaries of the matrimonial institution have possessed only the social graces, and have lacked the scientific inclination; but let us hope on and on, and perhaps this suggestion may strike the eye of some aspiring, but despondent student, and set him on the right road to fame. If he will but put away his microscope and butterfly net, and don a tuxedo. After all the romance and adventures of fortune seeking in modern times are no less entertaining now than in ages past. The field of operations are different, that is all. And who can say that the bowels of the earth contain any more horrors than the bowers of some families.

## ANARCHY.

Investigation reveals the fact that a large majority of the educated people of northern Europe, who come to America are, "theoretical anarchists." They do not believe in violence; they probably would support the government in case their services were needed to preserve it; but they look on government, at best, as a

necessary evil, which curtails the natural liberties and rights of man, and they argue that all restraint is inherently wrong.

Cardinal Gibbons, in his speech at New Orleans recently, gave us some startling examples of "practical anarchism who have the good, old Anglo-Saxon love of law and order implanted in their hearts, but who ingeniously manage to differentiate between their private affairs and their public duties, when he said:

"There is for instance, the anarchy the socialism expressed when it would make society headless, dispersing all authority among its members, valuing hoping in its dispersion that the million units that go to make up society, each one different in his habits, ambitions and talents, would somehow coalesce and achieve their destiny automatically.

"You have anarchy of wealth, while by its combinations and illegal exploitations would seek to make all things subject to its power; regarding honor virtue and humanity itself as mere chattels, which it may purchase and its owners destroy.

"We have anarchy of power, which men will seek to purchase and attain a place where God or nature or man never intended they should, and which, commonly obtained, they make an opportunity for oppression and dishonesty.

"We have anarchy in the moral order, when men will seek immunity from punishment justly due to crimes committed by an appeal to mandarin sentiment, which neither law of nations nor the unchanging law of God can justify.

"We have anarchy in the religious sense, when within the walls of Christendom, though Christ has given in its completion a revelation and a definite exposition of the same, yet men and women, too, will essay to preach the hallucinations of their own diseased minds, believing their ravings to be revelations and their uncanny doctrines the outcome of divine inspiration."

The school board has made a good selection in the site for the new south side school house. Careful study of the population to be reached by the school has demonstrated to the trustees that they have placed the building as near the center as practicable. They were in danger at one time of bunching the school houses. It is apparent that in making this selection the trustee were guided by nothing except the principle of doing what is best for the interests of the schools.

Philadelphia, Chicago, Kansas City and St. Louis are all after the national Republican convention. Tulsa, Oklahoma, will have to get a hunkie on.

## IN HUMOROUS VEIN.

Jones (rather proud of his powers as a linguist)—"And what do you think of my French?" Flemish Maid—"He is wonderful. The most wonderful French I ever heard."—Ally Sloper's Half-Holiday.

A "Frosty" First Night—"Are we alone?" asked one of the villains of the piece of his brother conspirator. "No, guv'nor," came a voice from the gallery, "but you will be tomorrow night."—London Tatler.

Raynor—I know, of course, that old Pragmatist is offensively positive, and controversial, but he's generally right, isn't he?

Shyac—Name him, yes! That's what makes him so offensive.—Chicago Tribune.

Griggs—The idea of your letting your wife go round saying she made a man of you! You don't hear my wife saying that.

Briggs—No; but I heard her telling my wife that she did her best.—Philadelphia Inquirer.

Joax (at the phone)—Hello! Is this Dr. Pitts? I wish you would come up at once and see what you can do for the baby. He's financially embarrassed.

The Other—Financially embarrassed?

Joax—Yes; he just swallowed a peuny.—Chicago News.

Quite a Luxury.

Lady: "How much do you charge for dachshuds?"

Dog Fancier: "Five hundred dollars a yard, ma'am."

Lady: "Dear me! How expensive! And of course I must have four feet."—April Lippincott's.

## REFLECTIONS OF A BACHELOR.

Some men expect you to do a favor for them as if they were doing it for you.

A man makes as much fuss over doing his duty as a boy over getting a tooth pulled.

A woman feels she isn't loyal to her husband unless she fibs about all the money he makes.

It's hard for a girl to take as much interest in your lovemaking if she suspects you mean it.

You can generally figure out something a man means by what he says unless he is running for office.

## IN THE SPRINGTIME.

This following simple prescription, which anyone can prepare at home, is said to restore the kidneys to perfect health, forcing them to filter all poisons and acids from the blood, overcoming Rheumatism, even in its worst form.

Any good druggist can supply these ingredients: Fluid Extract Dandelion one-half ounce, Compound Kargo one ounce, Compound Syrup Sarsaparilla three ounces. Shake these well in a bottle, and take a teaspoonful dose after each meal and at bedtime.

Your physician will tell you there is no better or safer mixture known to cleanse the blood and build it up, which everyone should do at this time of year. Readers of this paper can make no mistake by following this simple though valuable advice.

### ME, TOO, SAYS BROWN.

Who Declares Taft Will Be Choice at Party Leaders' Conference.

Toledo, O., May 9.—Walter F. Brown, chairman of the Republican state committee, declared in favor of the nomination of Taft for the presidency.

"Since the state convention in 1905," he said, "over which Secretary Taft presided as chairman, I have believed him to be the logical choice of the Republicans of Ohio for the presidency in 1908, and I heartily favor the movement to secure him an unequivocal endorsement at this time.

"In my judgment, the meeting of party leaders and joint committees at Columbus next week will result in a unanimous expression in favor of Secretary Taft."

### CANT TAKE TRIP NOW.

Washington, D. This fall, probably the latter part of October, the president may go down the Mississippi from St. Paul to New Orleans for personal observations preparatory to the preparation of his message to the Sixteenth congress, in which he will probably urge a deeper channel through the valley.

### THE TRAVELING MAN WILL BE A SO-OLD EVENT.

There will be a full dress rehearsal of the cast of "The Traveling Man" this evening at the Kentucky theater, and all the final touches will be put in. It promises to be one of the most successful and delightful amateur performances given in Paducah, and has absorbed social interest to the exclusion of all else for some weeks.

Boyle Woolfolk, the author and composer, has done some of his cleverest work in "The Traveling Man." He is a young Kentuckian already on fame's highroad, and his family is enough identified with Paducah to

make her feel a kindred beyond that of state pride. He is a grandson of Mrs. Amanda Woolfolk, of Louisville, who at one time made her home in Paducah, and is extensively related here. The cast of "The Traveling Man" is a well-selected one. There is every prospect that capacity house and numerous box parties will make it a distinct social event.

### MUNICIPAL PLANTS ALMOST BANKRUPT TOWN

Bluffton, Ind., May 9.—The municipal asphalt and lighting plants of this city have proved so expensive an experiment that there is no money in the general fund of the treasury and the council has ordered retrenchment in every branch of the city government with the hope of warding off municipal ruin. Three years ago the city built an asphalt repair plant of its own, issuing bonds for \$22,000 for the purpose. This proved too costly and the bonds have not been paid, nor has the plant earned even the interest on the money invested. The electric lighting plant has been no better investment. It is believed that the only way in which the city can recover its lost ground is to dispose of its municipal plants and use the money for paying off its bonded indebtedness.

Mr. and Mrs. Paul E. Stutz and sons will leave Sunday at noon for the Jamestown exposition. They will stop in Washington City en route and after a stay at Norfolk, will visit Mr. Stutz's old home at Danville, Va., where he has several sisters and brothers. November, 1905—Harry Neville, "inner circle" man, poisoned, Goldfield, Nev.

December 30, 1905—Murder of former Governor Stoenenberg, of Idaho.

Boise, Idaho, May 9.—By overruling the motion of the defense for a bill of particulars, setting forth what overt acts, if any, there were to connect the accused with the murder of former Governor Stoenenberg, Judge Wood cleared the way for the trial of William D. Haywood, secretary of the Western Federation of Miners, which will begin today. Wood held that the request of Haywood's counsel for a more explicit statement of the charges against the prisoners came too late, regardless of whether or not it might have been entertained at an earlier stage of the proceedings.

Haywood is the first of the four men accused of complicity in the Stoenenberg murder to be selected for trial. The others, Moyer, Pettibone and Orchard, the last of whom is said to have made a confession, will be tried as circumstances dictate, following the conclusion of the proceedings against Haywood.

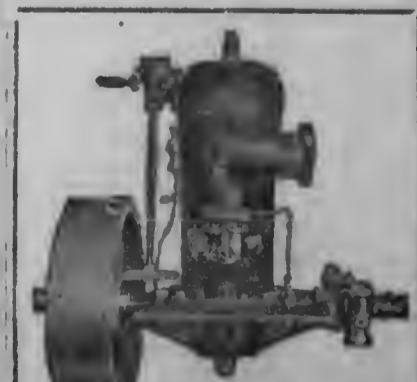

The Attitude.

The prosecution claims it will prove beyond the shadow of a doubt the guilt of the leaders of the Western Federation of Miners, known as the "inner circle" of crimes extending over a period of five years and including arson, train wrecking and murder.

The miners on the other hand declare the prosecution is only an attempt to break up their organization and that the detectives have manufactured the evidence against their men. They say they will spend a million dollars if necessary and will carry the case to the United States supreme court in order to prove their innocence. It is estimated that \$100,000 already has been spent in preparing for the defense.

The Crime.

The assassination of ex-Governor Stoenenberg occurred on the night of December 30, 1905. The alleged motive for the crime was revenge for the firm attitude Governor Stoenenberg had taken to suppress the riots and

Many anxious people that have heard of some great cure the discovery has made no longer to try it. The Root Juice people are making many friends by patiently answering questions and attending to the people's wants in a courteous manner. The reports from drugists from most of the cities of Indiana in relation to the great merit of Root Juice can no longer be doubted here in Paducah. Cassell Bros., of Anderson, said: They had never seen anything like it, and that the amount of catarrh, stomach troubles, rheumatism and kidney affection Root Juice has cured at that point within the last six months is phenomenal. When the Root Juice people were persuaded to come to Paducah they consented to remain but a few days. They are now at Alvey & List's drug store and are pleased to give a free dose of the great remedy to all that call. It is sold for \$1 a bottle, three for \$2.50.

outrages during the miners' strike in the Coeur d'Alene district. The calling out of the militia and other drastic measures employed by the authorities had resulted in victory for the mine owners and the miners were forced to admit defeat.

Governor Stoenenberg was blamed by the miners for their defeat.

Threats were hurled at him at all the miners' meetings, and he was frequently warned by his friends that his life was in danger. After finishing his second term the governor retired from office, and returned to live at his home in Caldwell. Several years passed and the Coeur d'Alene troubles apparently were forgotten.

Then came the shocking news that Governor Stoenenberg had been assassinated—literally blown to pieces

by an infernal machine as he was entering the yard of his home.

Immediate steps were taken to catch the assassin or assassins. Rewards, public and private, aggregating thousands of dollars were offered. Shapleton pointed to a man who had been in the town for some weeks and who was known as Harry Orchard. He was arrested and incriminating evidence against him was found in his room. Orchard, it was ascertained, belonged to the Western Federation of Miners, and had been implicated in several disturbances and in a train wreck in Colorado.

Finally James McFarland, a Princeton detective, who had broken up the Molly Maguires in Pennsylvania, was called in. After several weeks of careful work the methods of the master detective prevailed and Orchard broke down and confessed.

In his confession Orchard directly charged President Moyer, Secretary Haywood and G. A. Pettibone of the Western Federation of Miners of having plotted Stoenenberg's murder and with having furnished the money needed.

**G**UY moved uneasily upon his chair. The color mounted almost to his forehead. It was a humiliation, this, upon which he had not counted. M. Grisson was sitting within a few feet of him. A serviette was tucked carefully underneath his collar, and his face was a little flushed with the exercise of eating. His eyes, however, were unblinking, and his manners, although a little brusque, had certainly not merited the epithet of bongeuse. "It isn't much of a story," Guy began, making a desperate effort. "It was my first visit to Paris, and I lost my head a bit. I drank too much wine and quarreled with a fellow who certainly insulted me. They all told me that I must fight him, so—"

"Stop, M. Poynton!"

Guy raised his head in surprise. The exclamation had come from the Duke de Bergiliac. M. Grisson was looking toward him as though for an explanation.

"My dear young friend," the Duke remarked, with a smile, "it is my stupidity which to blame. I had forgotten the little matter to which you are aluding, and—between ourselves—it is one which is very much better not related to M. Grisson. I was aluding to your other adventure—in the Pozen forest."

Guy for a moment was too astonished for words. Then he recovered himself, with a little laugh and raised his head. There was nothing terrible in the other affair.

"I will tell M. Grisson about that with pleasure," he said, "if it is likely to interest him. I was in the north of Germany on a walking tour, and I had rather a stupid fancy to go as far as the Russian frontier, and then return by Vienna to Paris. I was quite alone and had no one's plans but my own to consult, so I started off from Berlin. I think the place was called Steritz. Well, we were within about forty miles of a place called Renau when our train was stopped and shunted. We were told that some specials were to go by. I should think we must have waited there for an hour or more. Anyhow I got sick of it and passed through the cars on to the rear plat-

Springfield, Ill., May 9.—Speaker Shurtliff and the house organization are now taking a look at the 2-cent fare bill as passed by the Senate today to ascertain if it will be desirable to concur in the Senate amendments. If they decide the bill will be improved up to the standard. Instead of compelling by law, it has succeeded in getting the consent of two dairymen to have all their cows tested for tuberculosis. It required some possible sacrifice on the part of these gentlemen, as they have very fine herds and may have to sacrifice some of their best cattle without remuneration, but they have interest of better conditions. Some others are not so patriotic."

### GREAT REVIVAL

UNDER WAY AT THIRD STREET  
METHODIST CHURCH.

Feature is Singing Led by Evangelist  
L. L. Pickett—Success Crowned  
Efforts.

One especial feature of the revival meeting now in progress at the Third Street Methodist church is the singing. Evangelist L. L. Pickett, who is conducting the meeting, is known throughout the land by his songs. He is the author of more than 1,000 songs, either words or music. His song books have sold more than 1,000,000 copies. The book he is now using he considers his best. The songs certainly grip the heart and are powerful factors in driving home the telling truth of the sermons. All lovers of music in the city are invited to attend and join in the singing. Many are already doing so among them the double quartet of male singers under the lead of Mr. Hogan. Evangelist Pickett is not only a writer of songs, but he is the author of a number of well known religious books as well, and his sermons are strong and forcible presentations of life truths. He delivered his fourth sermon on "Prayers" last night and made a deep impression. There was a large attendance and the conversion followed the service.

"The prospects are good for a glorious revival with far-reaching influence, I think," said the Rev. P. H. Field, the pastor of the Third Street church, today. "We ask all who love God and good to join us in prayer and an honest effort for a genuine and widespread revival of old-time religion."

The services are held at 2:30 and 7:45 p. m. each day. Arrangements will be made for a mass meeting for men only on Sunday afternoon at 2:30 o'clock. Evangelist Pickett's theme at this will be "The Devil's Three Eyes."

Do you want to sell a house of three or four rooms on payment of \$20 cash and \$20 per month? Our client will pay \$800 to \$1,000. Both Phones 127, H. C. Hollins, Real Estate and Rentals, Truheret Building.

All the blood of the body passes through the heart in 32 beats.

### THEATRICAL NOTES

WALLACE PARK CASINO.  
Thursday ..... "La Mascotte"  
Friday ..... "Said Pusha"  
Saturday ..... "Said Pusha"

"La Mascotte" Proves Popular.  
Quite as well rendered and proving itself as popular a summer attraction as was "Fra Diavolo," "La Mascotte" was presented at the Wallace Park Casino last night by the Beggar Prince Opera company, and Manager Malone is pleased with the way the season is being inaugurated.

All the principals were well cast last night. The characters were: Bettina, Miss Nola; Princess Feamita, Miss Etta Morris; Rocco, Mr. Godding; Lorenzo, Charles Nickles; Pippo, Mr. Lea Velle. The same bill for to-night.

#### Charley's Aunt.

The revival of "Charley's Aunt" is reported to be proving as great a hit as it was when first produced in this country. Etienne Girardot is again seen as the suppositionist aunt and the splendid stage settings provided by the management, contribute much to the production. Mr. Girardot's impersonation of "Charley's Aunt" provokes laughter that is mildly described by the term uproarious. Few actors have shown the ability to enact a feminine role in such a manner as to avoid even the slightest suggestion of vulgarity, yet this is what Mr. Girardot does. "Charley's Aunt" with Mr. Girardot, will undoubtedly be warmly welcomed at the Kentucky Monday night.

REACH HIGHEST POINT  
YET ATTAINED BY MAN

Paris, May 9.—Dr. and Mrs. Bullock, the explorers, have arrived here from India. The doctor tells of their recent effort to unveil the mystery of the Himalayas. "We camped," he said, "at the highest altitude attained by man—21,300 feet. This was in the unexplored Minlung range. From our camp on a snow plain surrounded by seven towering peaks, we ascended to a height where I stopped to take photographs as the mist was increasing, while Mrs. Workman climbed to a peak 23,300 feet above the level of the sea.

"Only once was this record broken, when I climbed the Chogu Lunga glacier, 23,394 feet. During the last five days of our climb, the atmosphere was so rare we were unable to sleep.

### Taft Wins in Ohio Over Foraker; Cincinnati Organization For Him

Washington D. C., May 9.—The opposition in Ohio to the candidacy of Secretary Taft for the presidency has collapsed. According to private information, believed to be reliable, which reached here this afternoon, the Cox forces will make a public statement in a day or two announcing their acceptance of the secretary of war as Ohio's candidate. A notification to this effect is said to have been given to Senators Foraker and Dick.

The defection of the Cox forces means the defeat of Senators Foraker and Dick. Recently George B. Cox, the Republican boss of Cincinnati, announced that as always he was behind Senator Foraker. But Cox and his lieutenants have been sounding the voters to ascertain their sentiments, and according to information received here today they have concluded it would be foolish to attempt to stem the tide which is running in favor of the secretary.

NO SURPRISE TO SECRETARY.  
The friends of Secretary Taft claim they are not surprised at the good news from Ohio. When the secretary of war was in the Buckeye state a week ago he talked with a number of politicians and got in touch with the people, and he came to the conclusion that his candidacy would receive the endorsement of his home constituency. Of the 21 congressmen in Ohio, 17 have declared they are for Taft, three have not been heard from, and one, who announced his support of Foraker, now is anxious to get in the Taft band wagon. There is not the slightest doubt in the Taft camp that a majority of the Ohio delegates will vote for Taft, and the hope is expressed that before many months elapse a solid delegation can be secured.

If the information received today should be confirmed, it will mean a great step forward in the movement for Secretary Taft. In many states a disposition has manifested itself to delay the endorsement of the Taft boom until the situation in Ohio had been cleared up. This hesitation naturally was advantageous to other candidates who proposed to attempt to create conditions which would insure election of delegations for

themselves instead of the secretary of war.

With Ohio in line, there is no doubt in the minds of the administration that other states, particularly those friendly to the president, will hasten to place themselves on record as supporting Mr. Taft. Tonight the supporters of Secretary Taft express themselves as well satisfied with the situation.
